

Change

Fiddler's Green

It's just another day I can't breath
It's playing in my mind when I sleep
The pictures in my head the won't leave
The faces look so strange, they're staring with cold eyes
They wanna

Change me, and change the things I see
Change me, and change the way I
See the world

They wanna steal my thoughts and believes
They wanna take it all away from me
Steal the reason I exist
The faces look so strange, they're staring with cold eyes
They wanna

Change me, and change the things I see
Change me, and change the way I
See the world
