

## Far Away

Fiddler's Green

Long ago we packed our bags  
Cause we had it up to here  
Only dressed in shabby rags  
So little would we need out there  
Cause we had a special thing that could open every door  
We make people dance and sing  
Like no other did before

Sing with me  
And dance with me  
To a cheerful song  
So sing with me and dance with me  
Tomorrow well be gone

Far away we had come  
Through the valley deep and the desert storm  
Far away we belong  
Till we find the road  
That will lead us home again

We can cast a spell on you  
If you hear that special tune  
Heat the fire inside of you  
There is nothing you can do  
Let us dance the night away tomorrow well be on our way  
On and on the road will lead us till we find that place to stay  
Round and round the merry go  
What well find we never know  
Just one thing will be for sure  
The beat goes on for ever more

Sing with me and dance with me  
Like this is our last song  
Sing with me and dance with me  
Like tomorrow never comes

Far away we had come  
Through the valley deep and the desert storm  
Far away we belong  
Till we find the road  
That will lead us home  
Far away we had gone  
Until no one knows  
We were ever born  
Far away we belong will we find the road  
That will lead us home

Far away  
Were so far away
