

Fiddler's Green

Fiddler's Green

In my green heaven there's a place
Shinin' like a lover's face
Where no one does you any harm
But keep the baby safe and warm

It's not my crazy fantasy
But part of my reality
It's not my crazy fantasy
But part of my reality

And if I could have my way
This night will never be a day
Tonight we go to Fiddler's Green
The fairest place I've ever seen

We wet our whistles all night long
And sing this crazy rotten song
On cloud nine we have a ball
Tonight we're gonna have it all

And if I could have my way
This night will never be a day
Tonight we go to Fiddler's Green
The fairest place I've ever seen
