

## Johnny

## Fiddler's Green

He spends his nights at Tatler Jack's  
He loves the beer, he likes the craic  
The spirits and the laughter flow

But Johnny isn't one to show  
He only comes here to forget  
And drown out the sorrow

Johnny, Johnny listen up  
Follow your desire  
Take the world into your arms  
And set your life on fire  
And I want, and I want  
I want you to reach higher  
There's no time to wait  
No time to wait

The clock strikes twelve, he orders more  
But the barman points towards the door  
"Live everyday like it's your last  
Or live forever in the past"  
So Johnny steps into the night  
Facing the darkness

Johnny, Johnny listen up  
Follow your desire  
Take the world into your arms  
And set your life on fire  
And I want, and I want  
I want you to reach higher  
There's no time to wait  
No time to wait

Johnny, Johnny listen up  
Follow your desire  
Take the world into your arms  
And set your life on fire  
And I want, and I want  
I want you to reach higher  
There's no time to wait  
No time to wait
