

Jump

Fiddler's Green

Jump jump jump around
and take your feed up from the ground
your dirty mess is miles and miles away

Move move move around
and shake your ass right to the sound
your time has comin you bagging you to stay

jump jump jump around
and take your feed up from the ground
your dirty mess is miles and miles away

move move move around
and shake your ass right to the sound
your time has comin you begging you to stay

we're going after hell and we're going to hell
we make a lot of money and we've got a lot to sell
we're blowing every party and we'll make it alright
all through the night
