

# Never Hide

Fiddler's Green

Never hide, never hide  
Don't give up and never hide  
When the sea is rough and the girls are tough  
Never hide, never hide  
Is tomorrow full of sorrow? Never hide  
Is your life just full of horror? Never hide.  
When you're goin' down the drain and your life is full of pain  
Never hide, never hide

Never hide, never hide  
Don't give up (No way!) and never hide  
When the sea is rough and the girls are tough  
Never hide, never hide

So let's take a ride  
There is nothing to hide  
I'll be by your side  
There's no more tears to cry

Is your money gone? Well sonny, never hide  
And your best friend looks like mummy, never hide  
When you're goin' down the drain and your sky is full of rain  
Never hide, never hide  
Is your day just full of hustle? Never hide  
And your night just full of bustle? Never hide  
When you're goin' down the drain and your life is full of pain  
Never hide, never hide

Never hide, never hide  
Don't give up (No way!) and never hide  
When the sea is rough and the girls are tough  
Never hide, never hide

So let's take a ride  
There is nothing to hide  
I'll be by your side  
There's no more tears to cry-y-y-y-y

Never hide, never hide  
Don't give up and never hide  
When the sea is rough and the girls are tough  
Never hide, never hide

So let's take a ride  
There is nothing to hide  
I'll be by your side  
There's no more tears to cry

Never hide, never hide  
Don't give up (No way!) and never hide  
When the sea is rough and the girls are tough  
Never hide, never hide

When the sea is rough and the girls are tough  
Never hide, never hide
