

## Together as One

### Fiddler's Green

Six in the morning, we get on the road  
Fourteen more hours till the start of the show  
Eight hundred miles in this barrel of steel  
Two stops for fuel and a pitiful meal

Hundreds of hours rehearsing these songs  
Twenty-five days wondering where we belong  
But when we get up here and look at the crowd  
It starts to make sense and the truth rings out loud

So come out in droves  
Come out, forget all your woes  
By dawn we'll be gone  
Give us a cheer and sing along  
We're in it together as one

Six in the evening, you get in the line  
Two friends beside you, they want a good time  
The guys come on stage and the first chords ring out  
United we stand and united we shout

So come out 'n dance  
Come out tonight, take a chance  
By dawn we'll be gone  
Give us three cheers and sing along  
We're in it together as one

Come out tonight  
Come out and stand in the light  
By dawn we'll be gone  
So let us all sing this last song  
We're in it together as one
