FIDLAR

I walk around with a screwdriver  
A pack of smokes and a Bic lighter  
I stay out of your way if you stay out of my way  
'Cause I don't wanna listen to your shit every day

I'm tired of walking away to lose you  
I take my Adderall with milk and sugar  
I'm gonna be okay, get the fuck out of my way  
'Cause all it is is just a bunch of Kool-Aid

I wanna lose my mind and lose track of time  
Won't somebody please just give me some alcohol?  
Alcohol

I'm sure I've got it figured out but I really don't know  
I love waking up in some random's home  
And I'll pack a cone and hit it to the dome  
And now I just wanna be alone

I wake up in the morning and I'm loose  
And I chew a couple pills and I hit the juice  
And I feel okay and get the fuck out my way  
And did you think I wanna hear what you have to say?

Do you wanna stay inside  
Or do you wanna go get some alcohol?

And I'll pack a cone and hit it to the dome  
And now I just wanna be alone with my alcohol
