

# CHANGE

FIDLAR

Hit the road, I'm on one again  
I just want to change the world and get fucked up with my friends  
Hit a line, every now and then  
Honestly it's probably when we stopped being friends

I hit the sand and then I hit some spins  
It's been way too long since I've been in a mosh pit  
Kicked Adderall and electric cigarettes  
Now I just feel like shit, stop being a little bitch

I don't want to change the world  
I don't want to change the world  
I don't want to change the world  
(I just wanna, I just wanna)

Start a band or start a trend  
It's been way too long to keep making amends  
I paddled out and I ain't paddling in  
It's been way too hard to pretend that we're still friends  
To pretend that we're still friends  
To pretend that we're still friends

I don't want to change the world  
I don't want to change the world  
I don't want to change the world  
I don't want to change the world  
I don't want to change the world  
I don't want to change the world  
I don't want to change the world  
I don't want to change the world
