

## 100 ghosts

Field Medic

No one knows cause I don't show it  
And no one helps  
Cause I don't want it  
I speak with 100 ghosts

And if I say "life's a trap"  
Ain't no god gonna  
Change my mind

I came here in a strange way  
I'm a silver balloon  
Hardly a reflection  
I burst to fire  
I burst into fire  
It makes me better  
I burst to fire

No one knows cause I don't show it  
And no one helps  
Cause I don't want it  
I speak with 100 ghosts

And I don't wanna hide pills  
In a black glass jar  
I don't wanna hide pills  
From lover girl
