

It all used
To pour right out
Now I'm pouring over a map
And when the light hits my face
I become a parody
Of my past

Cuz now all of a sudden I'm
Afraid to let anyone know
I feel sad
Cuz everything's been going so well
And I want this to last
Cuz everything's been going so well
And I want this to last

I had to lock up
All my problems
Just to make a dollar
And now no matter what I do
Everything feels hollow

Cuz now all of a sudden I'm
Afraid to let anyone know
I feel sad
Cuz everything's been going so well
And I want this to last
Cuz everything's been going so well
And I want this to last
Everything's been going so well
And I want this to last

I want this to last
I want this to last
I want this to last
I want this to last
I want this to last
I want this to last
I want this to last
I want this to last
I want this to last
I want this to last
I want this to last...
