

talkin johnny & june (your arms around me)

Field Medic

I need love like
June Carter
Love me 'til I'm sober
Get these pills off me and
Get your arms around me

I need love like
Johnny
Walk the line for me, boy
It's a Grand Ole Opry when
You put your arms around me

I don't wanna hear about the world today
Something bad is coming, be my escape
If wind means fire, here comes the flame
I'll smoke you to the filter
Just to savor the taste

I need love like
Oldies
There are bluebirds in the
Moonlight when I feel
Your arms around me

I need love like
Monet
Paint me like a lily
Bridge over Giverny
When you put your arms around me

I don't wanna hear about the world today
Something bad is coming, be my escape
If wind means fire, here comes the flame
I'll smoke you to the filter
Just to savor the taste

I don't wanna hear about the world today
Something bad is coming, be my escape
If wind means fire, here comes the flame
I'll smoke you to the filter
Just to savor the taste

Ah, just to savor the taste
Smoke you to the filter
Just to savor the taste
I don't wanna hear about the world today
I'll smoke you to the filter
Just to savor the taste
