

I had to wear long pants all summer
'Cause I got a tattoo
That looked like something it wasn't
I was in an OCD daze
Drawing shit on my leg
Felt like a fight for my life
Solving that puzzle

But that shit is over now
Yeah, I got it figured out
Fuck me for not thinking it through
But it could happen to you
I hope that never ever goes down
But that shit is over now

I used to drink White Claw at sunup
The guy at 7-Eleven knew I was a fuck-up
Man, I was so down in the dregs
I was all red in the face
I was so low
I thought it would last forever

But that shit is over now
Yeah, I got it figured out
Fuck me for not thinking it through
But it could happen to you
I hope that never ever goes down
But that shit is over now

That shit is over now
That shit is over now
That shit is over now
