

# Charming The Flames

Fields

Theres no need to bring me down  
Theres no need to follow me around this town  
Cause making arrangements  
For all our allibies

Spent in vacations  
And used up all our lives  
Theres no need to bring me down  
Theres no need to follow me around this town

Fate fragile in our hands  
Protected in our homes  
Hide them while thier still alive

Im on my way

Its fashion makes you vien  
Distracted, bored and pale  
Lying while the flames are live and well

I wish i had a life

Theres no need to bring me down  
Theres no need to follow me around this town  
Cause making arrangements  
For all our allibies  
Spent in vacations  
And used up in all our lives

Youve already brought me down  
Spent a lifetime  
Waiting quietly to drown

We wasted arrangements  
And watched our lives go dry  
A broken attactment to what we thought was right

Fate fragile in our hands  
Protected in our homes  
Hide them while thier still alive

Im on my way

Its fashion makes you vien  
Distracted, bored and pale  
Lying while the flames are live

Fate fragile in our hands  
Protected in our homes  
Hide them while thier still alive

Im on my way

Its fashion makes you vien  
Distracted, bored and pale  
Lying while the flames are live and well

I wish i had a life
