

Feels So Right

Fifth Harmony

Let's have amnesia for one night
And see how far we go
Put all of our issues aside
Let go of control
We keep trouble shooting
Trouble shoot back, I don't wanna go back
Let's go forward
You got your reasons, I got mine
That's just how it goes

So if it's trouble that your looking for
Baby, I don't need that, you can forget that
But if you wanna try for something more
I can get with that, just need you to know that

I know that it feels so right
But it's only for one night
I know that it feels so right
But it's only for one night

I spark that bullet for one night
And set this love on fire
Just keep your cool we'll be alright
One hell of a riot

So if it's trouble that your looking for
I can get with that, just need you to know that

I know that it feels so right
But it's only for one night
I know that it feels so right
But it's only for one night

I don't wanna go back, back, back, back
I know that it feels so right
We ain't gotta go back, back, back, back
Because it's only for one night
I don't wanna go back, back, back, back
I know that it feels so right
We ain't gotta go back, back, back, back
Because it's only for one night
So don't look back, back, back, back
Back, back, back, back
So don't look back, back, back, back
If it ain't a good time, don't be wasting my time

I know that it feels so right
But it's only for one night
I know that it feels so right
But it's only for one night

I don't wanna go back, back, back, back
I know that it feels so right
We ain't gotta go back, back, back, back
Because it's only for one night
I don't wanna go back, back, back, back
I know that it feels so right

We ain't gotta go back, back, back, back
Because it's only for one night
