Fifth Harmony

Open your heart up and let me inside it
Open your heart up, open your heart up

Take off the mask for me tonight
I wanna see you for who you really are
And baby you don't have to hide
I wanna see every flaw and every scar

Mmm right here, right now, put your fences down
Right here, right now, right here, right now

You and me, with no smoke and mirrors, mirrors
Let me see, you crystal clear, clear

No filter, no filter, no filter, no filter
No filter, no filter, no filter

Cover to cover page to page
I wanna give all the secrets that I keep
Unravel me in every way
I wanna give every single piece of me ooh

Mmm right here, right now, put your fences down
Right here, right now, right here, right now

You and me, with no smoke and mirrors, mirrors
Let me see, you crystal clear, clear

No filter, no filter, no filter, no filter
No filter, no filter, no filter

Open your heart up and let me inside it
Open your heart up and let me inside it
Open your heart up and let me inside it
Open your heart up, open your heart up

You and me, with no smoke and mirrors, mirrors
Let me see, you crystal clear, clear

No filter, no filter, no filter, no filter
No filter, no filter, no filter
No filter, no filter, no filter, no filter
No filter, no filter, no filter
