

# Over

Fifth Harmony

Walls are shaking, now I hear windows break, this place is out of control, this place is out of control.

Everybody's in a trance, and all we wanna do is dance, this place is out of control, yeah we are out of control

Whoever said last call is probably sitting all alone, 'cause we don't wanna go home, yeah we don't wanna go home

And now the party is over, we just wanna get louder,  
We never ever wanna stop, so we should move it to the parking lot

Take it somewhere else 'cause now the party is over,  
We don't wanna get older, we never ever wanna stop, now it's time for us to light it up,  
Take it somewhere else 'cause now the party is over

The sun comes up now but we keep standing strong 'cause we are out of control,  
Yeah we are out of control, the time is ours, got the people in my car,  
This night is out of control, yeah we are out of control

Whoever said last call is probably sitting all alone 'cause we don't wanna go home, yeah we don't wanna go home

And now the party is over, we just wanna get louder,  
We never ever wanna stop, so we should move it to the parking lot

Take this somewhere else cause now the party is over,  
We don't wanna get older, we never ever wanna stop now it's time for us to light it up,  
Take it somewhere else cause now the party is over

Know we like it crazy and we do what we want still regret nothing cause we, we don't care, we don't care

Know we like it crazy and we do what we want still regret nothing cause we, we don't care, we don't care

Now the party is over we don't wanna get older,  
We never ever wanna stop now it's time for us to light it up,  
Take it somewhere else 'cause now the party is over
