

My hands are shaking  
Fragile thoughts I'm making  
So far  
My life's been suffocating  
Now I am

I'm not giving in  
I'm not giving in

Life won't wait  
It just takes your place  
An eraser  
Who's your savior  
Time your fate and mistakes you make  
Your enabler  
Who's your savior

Toxins are racing  
Through my blood on the weekend  
It keeps me  
From thinking  
It keeps my head at peace and

I'm not giving in  
I'm not giving in

Life won't wait  
It just takes your place  
An eraser  
Who's your savior  
Time your fate and mistakes you make  
Your enabler  
Who's your savior [2x]

Stand up, wake up  
Save yourself and  
Rescue hell from  
Burning all the pain  
Enough, get up  
Brace yourself  
Erase your hell and  
Take in all the pain [2x]

Life won't wait  
It just takes your place  
An eraser  
Who's your savior  
Time your fate and mistakes you make  
Your enabler  
Who's your savior [2x]

I'm not giving in [4x]
