

Devil

Fight The Fade

She said "sit down, baby
Let's have a little fun."
I said, "You look like trouble
And I think I've seen enough."
But she moves in closer
Like a shark circling it's prey
She thinks I'm cornered
But the truth is

She's the devil
And she's coming after me
She's the devil
And this ain't going to be pretty
She's the devil
And she's coming after me
She's the devil
And this ain't going to be pretty

I look
Across the room and I see an open door
She looks
Dead at me, and I think I see her horns
If I don't leave now
Her claws sink into me
She'll drag me down
Cause the truth is

She's the devil
And she's coming after me
She's the devil
And this ain't going to be pretty
She's the devil
And she's coming after me
She's the devil
And this ain't going to be pretty

You can't mess around with the devil
It'll only cause you pain
You can't mess around with the devil
No matter what she say

She's the devil
And she's coming after me
She's the devil
And this ain't going to be pretty
She's the devil
And she's coming after me
She's the devil
And this ain't going to be pretty
