

Falling

Fight The Fade

You don't know me
But I wish that you did
This throne is a lonely place
When all I've got is you in my head
I'm falling

I know that my heart is feeling full again
Never felt so alive
And I know that you're the reason why
You brought me back to life

I didn't know my heart was sleeping
But now all I want is you
To take me and shake me and wake me up
Yeah wake me up

I know that my heart is feeling full again
Never felt so alive
And I know that you're the reason why
You brought me back to life

I've been sleeping
Take me and shake me and wake me up

I know that my heart is feeling full again
Never felt so alive
And I know that you're the reason why
You brought me back to life
