

Rescue Me

Fight The Fade

Who am I
To ask You where and when
This storm will end
You own the clouds
And the rain that's falling down
You own it all

I remember where I was
The night You rescued me
The night You set me free
And I remember where I was
The night You rescued me
The night You set me free!

And I am after Your heart
I want to see Your face
It's only by Your grace
And I am after Your heart
I want to see Your face
It's only by Your grace
That I am alive
