My God!

We will not drink your poison,
I've seen your ugly face,
Your vile's full of bittersweet destructtion and disgrace.
We've watched you take our leaders,
And lead them through the door,
Your slaughter house is full of them,
I can't take it no more.
I can't take it no more.

I will stand in your way,
You can not have them today,
We'll stand and fight,
We'll sing tonight!
We will stand in your way,
You can not have them today,
We'll stand and fight we'll sing tonight

You're infectious,
You're lies will not affect us,
His truth has made us free,
His truth has made us believe.
God is with us,
It's true he will protect us,
I'll strap his truth around my waist,
And I'll raise a shield of faith!

I will never bow to you again!
