

Build an Army

Fightstar

We'll hold this off to build these machines.

Crush these empires to ashes and make them wonder.

Just look out of your window and you'll find us here,
We can make a stand to stop the uproars,
If you can fight in wars for that.

Crush these empires to ashes and make them wonder.

If you could give us answers now.

Help us to end all the suffering,
We'll clean the blood from all our eyes,
Take the rage away from us.

If you could give us answers now.

We could crush these empires to ashes and make them wonder.

I hope that I'm okay with all of this.
