

## Damocles

Fightstar

Gut the animals, they won't feel a thing.  
You're all pigs in shit  
You should just call your mothers out, they'd be so proud of you,  
As you celebrate human suffering.

You make it obvious.  
Should we hang them high up under the gallows?  
Are we ever going to learn, are you ever going to value this life?

We are privileged, we are all obliged  
Just go fuck yourself  
I am your sword of Damocles  
Get down on your knees, will you have mercy on us please.?

How did we all fall down?  
You make it obvious  
Should we hang them high up under the gallows?  
Are we ever going to learn, are you ever going to value this life?

You live like animals, now it's your turn  
We take to the sky's as you bury yourself
