Gut the animals, they won't feel a thing.

You're all pigs in shit

You should just call your mothers out, they'd be so proud of yo  $\mathbf{u}$ ,

As you celebrate human suffering.

You make it obvious.

Should we hang them high up under the gallows?

Are we ever going to learn, are you ever going to value this li fe?

We are privileged, we are all obliged

Just go fuck yourself

I am your sword of Damocles

Get down on your knees, will you have mercy on us please.?

How did we all fall down?
You make it obvious
Should we hang them high up under the gallows?
Are we ever going to learn, are you ever going to value this life?

You live like animals, now it's your turn We take to the sky's as you bury yourself
