

We started running now  
But I cant see straight  
I cant communicate  
I swear we never will  
You will never break me down again  
So just please just understand  
I can take it away  
Our time is running out  
And I can see it in your...  
I wont be there when you hit the ground  
You talk to me  
I swear you'll see  
Speak up with the words you contain  
When I'm falling down  
How do you know  
How do you notice  
Speak up and stop ignoring the fact  
That you let me down  
Just answer me  
You know I need it all  
Yeah you hold it inside  
You cant breathe in  
I swear you never will  
Fuck you all I'll show you now I'm gone  
You talk to me  
I swear we'll see  
Speak up with the words you contain  
When I'm falling down  
How do you know  
How do you notice  
Speak up and stop ignoring the fact  
That you let me down  
Just answer me

We started running now  
But I cant see straight...
