

All Night

Figurines

I planned to tag along and then I'll waste all our money
I danced like a blurry phantom all night
Forever wasting time
Watch your back in this terrain
Screw up in the final chapter all night
All night all night all night

Four stools in a crowded room
There will be only one way
Lean back and you'll make it someday all night
Forever wasting time
Keep it down in this terrain
Dead eyes when you're greeting someone all night
All night all night all night

Slow down in a crowded room
I'm not going to hurry
Proceed to the final chapter all night
Forever wasting time
Watch your back in this terrain
I laughed and swore to keep it all night
All night all night all night
All night all night all night all night all night
