

Well, I was raised in a house that always focused on quality
Instead my vision just got too caught up on the quantity
Never thought that I could fall in love like this
This feeling is just too unreal, it feels like this
Baby everything about you from the way you talkin'
Makes me wanna really get proud when I'ma walking
Right next to you holding you so close, oh baby

I really want to feel something that's true
Girl I hope it's you, tonight, alright
I really want to feel something that's true, baby I hope it's y
ou, tonight, alright, alright

The way you touch me when you kiss my face
We got a love that can't be replace
Everybody tells me stay away from you
No matter what they say I keep lovin' you, yeah
Never giving up on what we have
Even though sometimes I just don't understand
It takes a special kind of guy to be my man
Cause I really wanna feel it

I really want to feel something that's true, girl I hope it's y
ou, tonight, alright
I really want to feel something that's true, baby I hope it's y
ou, tonight, alright, alright

She just handles every insecurity with ease
Humbles my heart when she's smiling, laughing, please
Takes my breath away, every single day
I just can't believe this the feeling that I feel right now
This the kind of girl you would leave never
You know she and I go play, and when you on the road she pray

I really want to feel something that's true, girl I hope it's y
ou, tonight, alright
I really want to feel something that's true, baby I hope it's y
ou, tonight, alright, alright
I really want to feel something that's true, girl I hope it's y
ou, tonight, alright
I really want to feel something that's true, baby I hope it's y
ou, tonight, alright, alright
