

## Chant (Independence Day)

Fiji

"Music has long been, my companion, since I was a child  
And um, one of the main things that, I've always felt was that  
this is my destiny  
If there was something that, you have to do  
Or something that you feel like you were called to do  
This was it for me  
Therefore it was important that I, made sure that evolved out o  
f my soul, and out of the reality of my life  
And I have come across so many, wonderful people that share the  
same dream as I do  
Therefore I now exist in Independence, along with those who hav  
e come across the hard life like I have"
