

## Get This Far

Fiji

Never did I anticipate it  
That you would be my greatest  
Love of all time  
And you would be mine  
So many nights I often wonder why  
It was me  
Stuck in this situation  
In a relationship with my dream woman

How did we get this far  
To be together  
It was all a dream  
God blessed me with a star  
Like you, my darling  
I couldn't ask for more

Never thought I would deserve this  
Situations like this is just unheard of  
I see that there's something else for me to learn from  
'Cause blessing like this won't come until I earned them  
Tell them, baby

You've given me a new life with a different purpose  
And cut my pain with a knife. I forgot what hurt is  
If I could write you a song, I'd make it wordless  
There's more to my love than what meets the surface  
Tell me, baby

Laying at night  
While I'm holding you tight  
Just you in my arms, while I'm counting my blessing like

How did we get this far  
To be together  
It was all a dream  
God blessed me with a star  
Like you, my darling  
I couldn't ask for more

So grateful for you  
Never could ask for more  
In my life for sure  
You gave me all the reasons  
To fall in love again  
Tell me

How did we get this far  
To be together  
It was all a dream  
God blessed me with a star  
Like you, my darling  
I couldn't ask for more

How did we get this far  
To be together  
It was all a dream  
God blessed me with a star

Like you, my darling  
I couldn't ask for more
