

Lean On Me

Fiji

Whoa
Cali Roots
J-Vibe
To the F 1 J 1
Lord have mercy
You better know

You can lean on me, whenever you need a friend
There when you're in need
Stormy weather and bright sunny days, don't you ever worry, Jah
will protect us
Never let us fall

To the wayside I go, once again
Always leads me back to the road, away from the trend
And I know that he can do the same for you
Don't let go to thine own self be true

You can lean on me, whenever you need a friend
There when you're in need
Stormy weather and bright sunny days, don't you ever worry, Jah
will protect us
Never let us fall

The sun will rise again, for us to face another day
We cannot pretend that we can't see what he has placed
In our lives we must take responsibility
Let love shine
Give us more positivity

You can lean on me, whenever you need a friend
There when you're in need
Stormy weather and bright sunny days, don't you ever worry, Jah
will protect us
Never let us fall

You can lean on me, whenever you need a friend
There when you're in need
Stormy weather and bright sunny days, don't you ever worry, Jah
will protect us
Never let us fall

You can lean on me, whenever you need a friend
There when you're in need
Stormy weather and bright sunny days, don't you ever worry, Jah
will protect us
Never let us fall
