

# Lonely Days

Fiji

I know that we mutually agreed  
For better, for worse, unconditionally  
Time and space did not allow us to succeed  
The way that we thought our love life would be

Every time I see that smile on your face  
It brings me so much joy in my heart, yeah-eh  
Takes me back to the very first time when you said you wanted us to start

Lady I apologize  
For all those lonely days and those restless nights  
Without me by your side  
And when you cried  
Cause my insensitivity didn't see the signs  
When all I wanted was to make you smile

She was the bestest  
Top o' me checklist  
Love, time, dedication well invested  
To dis woman me love so dear  
And me can't get da fact she no longer 'ere with me  
But it was only meant to set your 'eart free  
Cause what me offered you would not let us be  
Can't believe that our reality is just a memory, eh

Every time I see that smile on your face it brings me so much joy in my heart, yea-eh  
Takes me back to the very first time when you said you wanted us to start

Lady I apologize  
For all those lonely days and those restless nights  
Without me by your side  
And when you'd cry  
Cause my insensitivity didn't see the signs  
When all I wanted was to make you smile  
(All I wanted, all I wanted)  
Lady I apologize  
For all those lonely days and those restless nights  
Without me by your side  
And when you'd cry  
Cause my insensitivity didn't see the signs  
When all I wanted was to make you smile
