

Lovely

Fiji

I was on a lonely highway, rollin
Never left the house without my pockets swollen
Turned the curb with my six funk swervin
Eight ball hangin in lower underspoken
My jeans and my white T's steam pressed
Rollin through your campus you can't miss
Six two three, plus you want this

And then came she, so lovely
Knocked me off my feet, completely

Ain't my mind stay focused
When you facin twenty to life it's serious
How are you think I drew up this
Better get your right frame of mind and stay crisp
Stayin out the game, snitchless
Now I find yourself [?]
Got myself together like a boss
Buy enough [?] France
Always knew that I was gonna floss
Until that day came

And then came she, so lovely
Knocked me off my feet, completely, yeah

I remember when them boys came down
Told everybody to get down on the ground
Tear gassin and the gun shot sound
That's when you find out what everyone was all about
At your trial no one to be found
Lookin all around, friends all gone
All you see is the tears from your loved one's eyes

And then came she, so lovely
Knocked me off my feet, completely, yeah
And then came she, so lovely
Knocked me off my feet, completely...
