

Move On

Fiji

You better come to the water when you thirsty
Don't wait no longer in the dessert
You better make a move on
You see the preacher man giving you the message
From that tall prick you better just listen
You better make a move on
Well a beggers on the street going all round town
Asking everybody for change
Well you better make a move on

A tribulation time a coming
You better get ready, ready, ready
Any son of mine come back down town
All [?] what oh lord
Yeah, I gotta get a move on, oh...
I got to get my ah!

Oh, when ya dilly and ya dally and ya don't know where to go
You better ask somebody so
You better get a move on
Well if you caught up in the aisle
And nobody ever show you the light
You better get a move on
Well if the sun go down and you're mad at friend
Hurry up before the world end
You better get a move on

A tribulation time a coming
You better get ready, ready, ready
Any son of mine come back down town
All [?] what oh lord
Yeah, I gotta get a move on, oh...
I got to get my, ah!

When ya dilly and ya dally and ya don't know where to go
You better ask somebody so
You better get a move on

Use it lose it
And the truth shall set you free, oh lord
I am not a true believer and the witness Selassie has the key
To all you non believers you will come down to one D
When you see return as his majesty
His majesty, yeah yeah yeah...

A tribulation time a coming
You better get ready, ready, ready
Any son of mine come back down town
All [?] what oh lord
Yeah, I gotta get a move on, oh...
I got to get my, ah!
