

Pretty Face

Fiji

Pretty face got the best of me
And she knew what she was doin
Didn't even try to keep it discrete
She really set out to ruin
All the respect and reputation we build
Now amounting down to nothing
Loyalty and love was just somethin she played
Like a wolf in sheep's clothing

Have you ever been in a situation like that
Where you thought your character was under attack
Didn't know anything until you heard the facts from everybody else
The way she played you like puppet on a string
Your ignorance just overshadowed your instincts
And now you're finding out the hard way bout to flee
Even the promise of a diamond ring, oh what about mum

Pretty face got the best of me
And she knew what she was doin
Didn't even try to keep it discrete
She really set out to ruin
All the respect and reputation we build
Now amounting down to nothing
Loyalty and love was just somethin she played
Like a wolf in sheep's clothing

Oh, cause she not answering her phone as usual
Tellin you she running late, real casual
Everything she do, everything she say now that she not goin she-
a too busy in-a rayray
'ell me why I choose the girl with a 'ickle heart
Somebody's sticking by me when times are hard
Never won fe leave, follow where I lead, strictly down for me with R.E.S.P.E
.C.T
But not she

Pretty face got the best of me
And she knew what she was doin
Didn't even try to keep it discrete
She really set out to ruin
All the respect and reputation we build
Now amounting down to nothing
Loyalty and love was just somethin she played
Like a wolf in sheep's clothing

That's how you live with your mistakes now
You just got up and around
Easier said than done is the advice we give to you
A real man grew up in-a no rayray business
Keep your heart clean and forsake all the wickedness
When she go bad you knew she bad to di bone
That's why you do di right thing and leave her alone

Pretty face got the best of me
And she knew what she was doin
Didn't even try to keep it discrete
She really set out to ruin

All the respect and reputation we build
Now amounting down to nothing
Loyalty and love was just somethin she played
Like a wolf in sheep's clothing
