

# Rescue Me

Fiji

Here in this place, that I find myself standing in  
Wishing your embrace in this situation that I'm faced with  
Feel like you're so far, so far away from me  
I can only hope to get out of this cold and get into the warm a  
gain

Rescue me, from this fire I've been burning in  
Make it back again like we've always been  
And our love continuing  
You complete every single part of me  
Make it like it was situations passed  
Only true love deserves to last

Makin' up can be hard to do  
Knowin' that you're with something so true  
Maybe it's just you that I will run to  
Can't you feel my plead coming through  
Take me back this moment  
Only your arms are long for holdin'  
Don't want no one else for only you I felt  
Ever since I've been under your spell  
Please...

Rescue me, from this fire I've been burning in  
Make it back again like we've always been  
And our love continuing  
You complete every single part of me  
Make it like it was situations passed  
Only true love deserves to last

Rescue me, from this fire I've been burning in  
Make it back again like we've always been  
And our love continuing  
You complete every single part of me  
Make it like it was situations passed  
Only true love deserves to last
