

Couldn't help but notice you smiling  
At me with your pretty face, yeah  
Like a star you were just shining  
So free in a special way, eh  
My mind says approach  
But my hearts been broke before, oh  
And if you ask me to  
I would say yes indeed for sure

I would lock you in the room and throw the key away  
Make sweet lovin til the very next day  
Feed you breakfast in bed with champagne  
Massage your body to ease the pain, and  
Start you up again in the course for round two  
Your body heat burnin up in my bedroom  
And I'll keep making love cause my pride  
Won't stop till you're satisfied  
Till you're satisfied

By now you know I aim to please  
I could never tease  
Let me take your picture, freeze  
And your desires kill my curl  
Kept me lifted up  
Girl I wanna get ya  
You're the reason why  
Making love is such a beautiful thing  
The magic in your eyes got me wanting all this love you bring

I would lock you in the room and throw the key away  
Make sweet lovin til the very next day  
Feed you breakfast in bed with champagne  
Massage your body to ease the pain, and  
Start you up again in the course for round two  
Your body heat burnin up in my bedroom  
And I'll keep making love cause my pride  
Won't stop till you're satisfied  
Till you're satisfied

I would lock you in the room and throw the key away  
Make sweet lovin til the very next day  
Feed you breakfast in bed with champagne  
Massage your body to ease the pain, and  
Start you up again in the course for round two  
Your body heat burnin up in my bedroom  
And I'll keep making love cause my pride  
Won't stop till you're satisfied  
Till you're satisfied
