

## Special Lady

Fiji

Dance with me like a never ending story from a fairy tale  
Still can't believe you've been with me through all these years  
Never did I think that we would last this long, oh baby  
In my memory, I regard mistreating you with so many ways  
And you're still here  
How grateful I must be to your beauty, my baby

It takes a special lady to be with a man like me  
I know, baby, you must be heaven sent, tailor made for me, oo-  
ee  
I know how hard it gets sometimes when I start to lose my tempe-  
r  
And there you are just taking it all in stride  
That's why you are my wife, I love you for life

Make it sweet, that's what you do to my cup of coffee on that d-  
ays, what a lady  
You make me want to be a better man every single day, baby  
I can't believe how much patience you have had with me through  
all these years, hanging in there  
There is no way that I can repay all the love you gave for me

It takes a special lady to be with a man like me  
I know, baby, you must be heaven sent, tailor made for me, oo-  
ee  
I know how hard it gets sometimes when I start to lose my tempe-  
r  
And there you are just taking it all in stride  
That's why you are my wife, I love you for life  
It takes a special lady to be with a man like me  
I know, baby, you must be heaven sent, tailor made for me
