

Where Did We Go Wrong

Fiji

Wasted mornings and wasted nights
tryna find me a peace of mind
come home early just to see
the broken shards of mess from your tears
now the love that i once had is gone
its like heaven left me on my own
smell the perfume that you left behind
and all regret has got me thinking twice

where did we go wrong
how did i not see the signs that you showed
all the lies we told
only last until the day you walked out the door ohhh
mmmm
the only thing to do now is move on

still you haunt me with emotions strong
thinking of my baby girl whose lost
wondering why she feels the pain we caused
pray that she knows that i'll be here
and may god please take away her fears
there will come a time where she will see
the reasons why our love was not meant to be

where did we go wrong
how did i not see the signs that you showed
all the lies we told
only last until the day you walked out my door
ohhh
