

# I Like You

Fil Bo Riva

Wanna hide, way above the sky  
Wish that I could cry, but a man don't sigh, you know  
Riding fast, with my heart of glass  
Gonna let it crash, so the light comes back, for sure

Won't let you go, I wanna know who you are  
I'm on the run, but never made it that far  
Far far far far, I wanna be where you are  
'Cause I like you, I like you, I like you

I'm never gonna break your heart  
I'm never gonna break your heart  
I'm never gonna break your heart  
I'm never gonna play that part  
I'm never gonna break your heart  
'Cause I like you, I like you, I like you a lot

Bittersweet, feels my symphony  
Why you tryna keep, all the love you feel, inside  
Play your cards, lay 'em down, don't hide  
Show me all your scars, and I'll show you mine, alright

Won't let you go, I wanna know who you are  
I'm on the run, but never made it that far  
Far far far far, I wanna be where you are  
'Cause I like you, I like you, I like you

I'm never gonna break your heart  
I'm never gonna play that part  
I'm never gonna break your heart  
'Cause I like you, I like you, I like you  
I'm never gonna break your heart  
I'm never gonna play that part  
I'm never gonna break your heart  
'Cause I like you, I like you, I like you a lot  
'Cause I like you, I like you, I like you a lot
