

Time Is Your Gun

Fil Bo Riva

Heaven is good and heaven is bad
Heaven is beautiful in your head, oh in your head
You make me sick and you make me sigh
You make me cry at night when you lie, oh when you lie

And time is your gun, oh oh
And time is your gun, no

You fuck around when I'm not around
You wear your crown and I don't know why, I don't know why
You make me sick and you make me cry
They say it's a dream but it doesn't seem, what do you mean?

And time is your gun, oh oh
And time is your gun, no

Time is your gun
Time is your gun, no
Time is your gun, no

Oh you won't see me when I'm around
No you won't believe me

I am nobody, time will forget me
You are somebody, but this won't upset me
I am nobody, time will forget me
You are somebody, but this won't upset me, oh oh
'Cause you won't forget me, oh oh
No you won't forget me

Time is your gun
You won't forget me, oh oh
You won't forget me, oh oh oh oh...
