

# Better Off

Filous

A thousand hearts, a thousand lies  
Sweet love and endless fights  
Low vibes and high rides  
Made me lose my mind

When I need you close at hand  
You turn your back on me again  
I'm longing for my love again  
I need you to understand

After days and nights we spend  
I'm not better off with you  
I'm sick and tired  
I can't pretend  
I am better off with you  
After days and nights we spend  
I'm not better off with you  
I'm sick and tired  
I can't pretend  
I am better off with you

I'm not better off, better off with you  
I'm not better off, better off with you  
I'm not better off, better off with you  
I'm not better off, better off with you

A thousand hearts, a thousand lies  
Sweet love and endless fights  
Low vibes and high rides  
Made me lose my mind

When I need you close at hand  
You turn your back on me again  
I'm longing for a solid man  
I need you to understand

After days and nights we spend  
I'm not better off with you  
I'm sick and tired  
I can't pretend  
I am better off with you  
After days and nights we spend  
I'm not better off with you  
I'm sick and tired  
I can't pretend  
I am better off with you

I'm not better off, better off with you  
I'm not better off, better off with you  
I'm not better off, better off with you  
I'm not better off, better off with you
