

Cherry Gum

Filous

You're blowing sweet bubbles with some cherry gum
Never say it but you wished you had a gun
Never use it but it could be kind of fun
Acting tough but I wish you knew someone

Woke up a with a stomach ache
You need a face timing break
Tired of lifting my own weight
Good thing I don't have to wait

I don't have to wait
I don't have to wait
I don't have to wait

You're blowing sweet bubbles with some cherry gum
In your car almost always hit and run
Don't feel bad about all the things you've done
Wish you wouldn't but you'd probably tell your mum

Woke up a with a stomach ache
You need a face timing break
Tired of lifting my own weight
Good thing I don't have to wait

I don't have to wait
I don't have to wait
I don't have to wait

Stay in your bubble, grow stubble, never leave the house, cause trouble
Knock your walls down, throw rubble, probably see double
Feel muddled, maybe lose a pound and never chuckle
But when I see you, acting subtle
