

## Dawn

Filous

Don't go running out  
Don't go race around this town tonight  
Stay here, everything will fall in place  
As long as we don't try to chase

Can we take this path?  
Will you follow through?  
Will you walk beside me?  
Realize there's something new every dawn  
With a single breath, we'll walk this street  
We'll sail for miles and realize there's something real  
Not just make-believe

Don't go running out  
Don't go running out  
Don't go race around this town tonight  
Stay here, everything will fall in place  
As long as we don't try to chase

Can we take this path?  
Will you follow through?  
Will you walk beside me?  
Realize there's something new every dawn  
With a single breath, we'll walk this street  
We'll sail for miles and realize there's something real  
Not just make-believe

Somewhere, we will find  
Someday, somewhere, we will find  
Someday, somewhere, we will find  
Someday, somewhere, we will find
