

## Early In The Morning

Filous

I keep asking who you've been with  
But it doesn't mean I'm interested  
I'm just high and wanna talk shit  
And I know you pick up because you worry about me still  
So believe me I don't need you  
It's only 'cause you know me so well  
You know everything I've been through  
I am just keeping in touch I don't miss you that much at all

Saturday night out of my mind  
I don't know why you've got such a hold on me  
When I'm drunk and lonely

I know it's early in the morning  
And we haven't really been talking  
But the party got kinda boring  
I swear I don't think of you often  
So don't get it wrong I am just calling  
'Cause the party got kinda boring

Yeah I know I kept your t-shirt  
That's only 'cause it fits me better  
I could lose it and it wouldn't hurt  
So don't get ideas that I'm wiping my tears with it  
I am the best I've ever been babe  
I've been having so much fun without you  
You just call me on an off-day  
I've got so many friends that can help me forget about you

Saturday night out of my mind  
I don't know why you've got such a hold on me  
When I'm drunk and lonely

I know it's early in the morning  
And we haven't really been talking  
But the party got kinda boring  
I swear I don't think of you often  
So don't get it wrong I am just calling  
'Cause the party got kinda boring

I know it's early in the morning  
And we haven't really been talking  
But the party got kinda boring  
I swear I don't think of you often  
So don't get it wrong I am just calling  
'Cause the party got kinda boring
