

Knots

Filous

Oh, you roped me in, tied a knot
And we got tangled up inside your head
Looking in your mind, knowing every thought
But all I want is just to cut the thread

I'm tied up, tell it to you
Ooh, this gridlock won't let me loose

You got me in knots
You got me in- you got me in knots
You got me in
All I really want is no strings attached
But I know I'll never get it back, 'cause
You got me in knots

Oh, you're wrapping me, smothering
At least I'm holding on and won't let go
Every piece of me just wants to leave
Unravel it all, row by row

I'm tied up, tell it to you
Ooh, this gridlock won't let me loose

You got me in knots
You got me in- you got me in knots
You got me in
All I really want is no strings attached
But I know I'll never get it back, 'cause
You got me in knots
(You got me in knots)
You got me in- you got me in knots
You got me in
All I really want is no strings attached
But I know I'll never get it back, 'cause
You got me in knots
