

# Burn Out the Sun

Filter

Oh no what time is it I just got fine with it  
Everything we talked about it's all gotta change  
It needs a rearrange I like talking to you but I lose track of the time

My heart is still cold from the other line  
My soul was provoked for a different crime  
I know you'll find a way I know you'll get away  
But will you take me with you I hope you take me with you

I feel so tired  
But time keeps marching on  
I can't sleep till all  
These clouds are gone

Oh no we're blind again we just lost the sight of it  
Everything and all that we had ever done  
We need to see again we stopped listening  
And that's on all of us this time  
Our hearts are still sold from a simple time  
And our wants are still old and we do or die  
I hope we find a way I hope we get away  
Just a rescue from a lost lonely time

I feel so tired  
But time keeps marching on  
I can't sleep till all  
These clouds are gone  
Till they're gone  
Till they're gone  
Till we burn out the sun  
Till they're gone  
Till we burn out the sun

Hey will you wait for me  
Hey will you wait for me

I feel so tired  
But time keeps marching on  
I can't sleep till all  
These clouds are gone  
I feel so tired  
But time keeps marching on  
I can't sleep till all  
These clouds are gone  
Till they're gone  
Till they're gone  
Till we burn out the sun  
Till they're gone  
Till we burn out the sun
