I cross the oceans  
I cross the seas  
I cross the mountains  
Like a new disease  
I cross the borders  
I cross the line  
Never to see the light  
Til the end of time  
I've seen the canyons  
I've seen the cities  
I've seen the prisons  
That take such pity  
When it comes to you  
When it comes to me  
It's just money that will set you free

Hey my children  
What seems important won't last forever  
Hey my children  
What seems important won't last forever

Take a look at the Earth  
From a plane  
You'll see the earth  
Cut up and in pain  
Take a look at L.A.  
From the sky  
What you see  
Should make you cry

Hey my children  
What seems important won't last forever  
Hey my children  
What seems important won't last forever
