Sometimes the shit just piles up
I wash my hands and then what
Played by the rules and got fucked
Crossed my heart swore to God but something died

They took my pile of gold
So I keep my head high
Distilled in a cloud of loss hopes and pride

That's why I want to stay
That's why I want to be
High as a mother fucker yeah
High as fuck

I gotta find my life on backup
Command Z undo my fuckups
Outside world is theirs and blown up
Fade to black, open wide, movie screen live love and die

They took my heart of gold
So I keep my head high
Distilled in a cloud of loss hopes and pride

That's why I want to stay
That's why I want to be
High as a mother fucker yeah
High as fuck

Distilled in a cloud of loss hopes and pride
