Oh, I can't afford my meds, existing all alone
Voices in my head, it's coming through my phone
I can't afford my meds, I wanna' see 'em dead
But at least I got a shotgun

I can't afford my meds, but at least I got a shotgun
I can't afford my meds, but at least I got a shotgun
I can't afford my meds, but at least I got a shotgun
I can't afford my meds

Dream a little dream, let it feed off all my needs
You know I love the man, love the man
He's got me in his hands, he tells us it's all good
As only darkness could
Please, dear God, lie, lie to me

Yeah, I can't afford my meds, something is unglued
I see it in my head, ain't buying your fake news
Wanna' see 'em dead, I can't afford my meds
And the answer's in my shotgun

I can't afford my meds, but at least I got a shotgun
I can't afford my meds, but at least I got a shotgun
I can't afford my meds, but at least I got a shotgun
I can't afford my meds, but at least I got a shotgun

Dream a little dream, let it feed off all my needs
You know I love the man, love the man
He's got me in his hands, he tells us it's all good
As only darkness could
Please, dear God, lie, lie to me

It's not a lie if you believe it
It's not a lie if you believe it
It's not a lie if you believe it
It's not a lie if you believe it
It's not a lie if you believe it
It's not a lie if you believe it
It's not a lie if you believe it, ha
Yeah!

They got us right where they want us
At each other's throats
They got us right where they want us
At each other's throats
